GALLERY SONJA ROESCH focuses on reductive and concept-based art. This art deals with color, light, and the experimentation of alternative materials, creating a break or space in the visual norm. Its outcome is independent of popular styles, based on basic aesthetics, and emanates timelessness. Sonja Roesch founded the Gallery in 1991 in Germany. In 1996, she relocated to Houston, Texas and continues to pursue her vision with a program of international artists working with painting, drawing, and sculpture. - Visit the website www.gallerysonjaroesch.com for more information.
